Simply Better by Degrees

Dual Air Conditioning Systems

Crisp-Air has been supplying and installing air conditioning in the Mercedes-Benz LCV Sprinter and Vito range for many years. Customers use their LCV for a variety of applications and we have dual air conditioning available for each situation. To meet the customers needs we can install the REAR evaporator behind the front seats or at the rear of the vehicle with supporting condensers at the front, under the body or for the Sprinter, on the roof.

We are able to supply and fit from **\$5,500.00** (including GST) throughout Australia.

We offer a comprehensive **3yr/100,000km** warranty for all new vehicles. Our air conditioner service plan has been aligned to vehicle service intervals.

Performance Specifications:-

- Front OE integrated evaporators
 - * Vito - 7.5Kw
 - * Sprinter - 7.9Kw
- Rear evaporators
 - * Vito - 5.3Kw
 - * Sprinter
 - * Low Roof - 6.5Kw
 - * High Roof - 11.3Kw
- Systems are controlled by front and/or rear switches.
- Fully engineered systems with compressors and condensing sized to suit the application.
